Re: Public Works Committee 7/17/2018 agenda item 10
Amendments To As-Needed Civil Engineering Services Agreements

Dear Chairperson Kalb and Committee members:

At its meeting of July 16, 2018, the Oakland Measure DD Community Coalition discussed the need for amendments to civil engineering service agreements to allow continued progress on the Oakland Bay Trail. The 33 participants reviewed the staff recommendation and its thoughtful rationale and expressed unequivocal consensus in support.

The Coalition adopted the following statement and directed that I transmit it to you.

We strongly urge the Committee to support continued progress on the Oakland Bay Trail by approving the staff recommendation for Agenda Item 10.

Thank you for considering this input.

Sincerely,

William Threlfall
Coalition Administrator
